

Consulate General of India

Munich

Advisory

It has been observed on multiple occasions that the Indian passports have been used as an advertising platform by many unscrupulous travel agents, defacing the cover of the passport by pasting their agency/company's stickers. This is also in contravention of Government of India's guidelines in this regard.

2. All passport holders are therefore requested to ensure that their passports are not defaced by the travel agents or any other person or establishments at any time.
